Read: From the Collector of South Kanara, D.Dis.7164-42, dated 21-11-42 and Rc.B1.132-43, dated 16-1-43.

REFERENCE:-

At the request of the Panchayat Board of Baindoor in Coodapoor Taluk, the Collector of South Kanara suggests that the Kumkidars and the Kudubis in the villages of Baindoor and Yedthare, comprised in the panchayat area, may be permitted to do kumri cultivation in Kumaki, and unreserved lands respectively in those villages. Further he states that kumri cultivation is the only method by which dry lands can be cultivated in his district and recommends that for the sake of food production an experiment may be tried and the request of the Panchayat Board may be complied with. As the proposal does not involve ~~fresh~~ forest reserves and as it is restricted to kumaki and assessed waste lands on which there is little or nothing worth preserving, the Board supports the Collector's proposal and recommends that the cultivation may be permitted subject to the following conditions:--

(1) that the concession is to be in force only for three years or for the duration of the war, whichever is longer.

(2) that it should be applicable only to the Kumkidars or their nominees in Kumaki lands and to the Kudubis in non-kumaki unreserve lands.

(3)

(3) that the cultivation should be limited to 5% of the total extent of waste land in the village.
(4) that the previous permission of the Tahsildar should be obtained beforehand.
(5) that the areas selected should be free from valuable tree growth as far as possible and the tree growth fetching value should be sold by the Tahsildar beforehand.
(6) that the areas selected should ordinarily be level, land-slopes of hills being avoided as far as possible and
(7) that the kumakidars should plant cashew, casuarina or hopea trees along with their cultivation and protect them as far as possible.
